NATIONAL COLLEGE OF EDUCATION
EVANSTON, ILLINOIS

VOLUME 35

Foreword

To seniors as well as to "not so pea green" freshmen the coming of spring has brought the startling realization that another year has passed—another year at National that will soon be only a memory . . . for you grads it will be your last memory, safely captivated in this yearbook, never to be lost . . . for those returning there will be many more in the years to come . . . for all, whether we've been here one semester or four years, this annual will retain our most cherished moments—the pride we felt when our president was inaugurated, the thrill of dancing with our best beaus at the "Frost Frolic", the excitement during festivals and bazaars, the inspirations of teaching . . . this is truly our life . . . this is truly our book.

College life is fast drawing to a close for you grads . . . soon all will be past tense . . . as you page through this last annual, scores of new faces will bring the realization that younger feet will soon tread the paths you are departing, the paths you started up several years ago when your lives at National first began . . . it's not difficult for you seniors to recall your first days at N.C.E. . . . the stage of correspondence had passed . . . transcripts were in . . . programs were set . . . and you were here, though it was hard to comprehend, you were actually here at National . . . that week of achievement, psychology, and music tests was over . . . you were still shocked at your diverse talents and couldn't help wondering, "Is it all in vain?"

Wondering stopped soon enough when you found yourselves struggling over themes in freshman English and cells in bio. lab . . . the second year arrived before you knew it . . . social studies and student teaching made the time pass quickly . . . at last you were a part of the traditional daisy chain . . . then quite suddenly you were juniors taking elective courses . . . exams came and went again . . . a brief rest and you began this, your last year, as seniors . . . despite all efforts to the contrary, spelling technique again appeared on your program . . . you found yourselves the heads of organizations . . . "placement" is a word that has taken on increased meaning . . . graduation has become a reality . . . and with the idea "creative self-expression" firmly fixed in your minds you are ready to begin a new life.

The long procession of academically garbed dignitaries . . . the impressive quiet of the inauguration ceremony . . . the heavenly music of the choir . . . the prematurely gray hair above the fine face and erect stature . . . the sincere voice uttering important truths about education and expressing high confidence in the future of our college . . .

The crux of the inaugural address concerned the role of the teachers' college—its duty to the profession and the child . . . it noted teachers' need for knowledge, courage, vision, creativity and professional skill to meet the challenge of the times . . . stated that the function of teacher education is to develop "a dynamic sense of the worth of the individual and his capabilities for growth and self-direction and to afford opportunity for democratic ideals to be more fully appreciated by putting them into practice in school" . . . stressed necessity of "world vision" and said "man has lagged far behind in his evolution in 'the field of human relations'" . . . "if lasting peace is established, human emotions and understandings must play a vital part" . . . said there must be a sensitivity to individual needs and readiness to meet those needs . . . emphasized the emotional climate of a child's environment as being perhaps the greatest factor in the learning situation . . . stated that method and approach must change with our ways of living even though subject matter remains fairly stable . . . spoke of how the ideas and ideals promulgated by American teachers may well determine the future of our country . . . summed up the role of the teachers' college as one of "training teachers to meet the needs of children . . . and of giving vision and courage to those who undertake to lead youth" . . .

Our college president is competent, friendly and well-liked . . . he's scientific . . . and musical . . . his fine tenor voice carries a true tune . . . small Tommy can be found toddling around prexy office occasionally . . .

With heart and spirit, we dedicate this book to Dr. Johnson, our new president, who has our faith and our enthusiasm.

THE STAFF OF 1950

We aim to take CARE of our own...

... the way any proud parent does. And we see to it that our service is one of the extra satisfactions of owning a beautiful Chrysler. We train good men to put as much pride and craftsmanship into servicing your car as the builders put into building it. We use only genuine replacement parts, factory-engineered and tested, and identified by the trade name MōPar. After all, as we see it, it's our business to keep your Chrysler as sweet-running, exciting and wonderful as on the day you bought it.
